Lego Club

Notes

This month was pretty basic. Donnica is gone the 2nd week in January so some programming has been moved to later in the month as we don't have enough staff to make it work. During the Xmas break there was a Game Day and a Movie Day to keep the kiddos busy! Things with my foot are pretty much the same. I see the doctober next on Thursday, January 19th. Pain has been an issue, so we backed of on the weight bearing of PT and am hoping that helps it diminish. Or course keep off it if it hurts, and ice. Lower attendance - weather has been bad this month. I closed on days where the windchill below -30 degrees. Winds, snow, and ice were bad. December 22nd and 23rd.
